

IN LOVING MEMORY OF

TOM

1 IN 4  
SHEFFIELD PROSTATE CANCER  
SUPPORT GROUP

1 in 4 men of Black, African or Caribbean heritage  
will get Prostate Cancer in their lifetime.

Tom helped to set up the Sheffield Prostate cancer  
Support Group in 2022; the first of it's kind in the  
North of England.

# 1in4SPSG Launch Party

Tom was determined to raise awareness about the increased risk of prostate cancer for black men.

He understood the benefits of being diagnosed early.

He fought to improve access to PSA testing.

Tom was a prolific fundraiser and his collection bucket went everywhere with him.

## REPRESENTING IN RESEARCH

Tom took part  
in research to  
improve care for  
the next  
generation.

# active against cancer

Tom supported a collaboration with Macmillan cancer charity & SWFC to enjoy the benefits of exercise following a cancer diagnosis.

## ENDURING FRIENDSHIP

Tom and Robert have been friends since 1960's, when they used to drive to Nottingham in Tom's Ford Zephyr for nights out.

Tom was a much loved & valued member of the group. He will be greatly missed.

We will miss your smile, laughter & positivity.

R.I.P Tom
